Smaoineamh – 'A Thought'

People usually consider walking on water or in thin air a miracle. But I think the real miracle is not to walk either on water or in thin air, but to walk on earth. Every day we are engaged in a miracle which we don't even recognize: a blue sky, white clouds, green leaves, the black, curious eyes of a child -- our own two eyes. All is a miracle.

A recent publication by Br. David Gibson

Br. David Gibson has just published a book on Transactional Analysis (TA) for use with communities. Each chapter explains an aspect of TA and then applies it to the community situation. At the end of each chapter are some questions for community discussion and to apply the theory to practice. Br. David is running workshops on TA with various communities at present, using the book as a resource. The book can also be a useful help for communities that want to deepen the quality of their life together. His book can be purchased from Amazon.

Welcome
